

## NEW PUBLICATIONS.

**AMONG THE HOLLOWBILLS.** By HENRY M. FIELD, D. D., 12mo, pp. 243. Charles Scribner's Sons.

This volume is in some respects the pleasantest which Dr. Field has published. He describes the Sacred Land with a graceful and unaffected sentiment; he recalls the events which make it memorable with a reverent simplicity; he presents some neat studies of Eastern character, and withal narrates his traveling adventures with an agreeable humor. Dr. Field is one of the most amiable of tourists; he looks upon most things with a mellow kindness, and finds good everywhere. The traveler gives much space to discussion of the Arabs and their wild life. They do not like to shed blood, he declares, having a fear of the blood feud.

"But they have no moral scruple about it. Sometimes when stern necessity compels a murder, one may feel a slight twinge of remorse. 'One day,' said a sheikh to Floyd, 'as I was riding across a plain, I saw coming toward me a man mounted on the most beautiful mare I had ever seen (the Arabian mares are especially prized); her form was perfect; there was such grace and spirit in every step, that I turned to look at her with admiration, when an impulse seized me which I could not resist. It was the work of an instant. I dashed at the rider, and ran him through with my spear. He rolled off, but gave me one look that I could never forget. I should have thought nothing of the act but for that last look; but that has haunted me ever since. It follows me to my tent, and when I awake in the night, I see those eyes staring at me with a look of reproach. But,' he always adds, 'who could help it for such a mare?'

At present there is not much civilization in Syria; there is only the telegraph wire to show the modern miracles of science and commerce. In the proposed railway and canal, Dr. Field sees the agents that are to revolutionize life in the Holy Land. As the Pacific railroads, he says, are settling the Indian question, so railroads across the desert may yet settle the Arab question and subdue to the ways of righteousness and peace these restless children of the desert.
